THE OLD COTTAGE CLOCK. This exquisite piece will doubtless send many a reader to the little volume from which | G C Steams, NY it is taken.* The Letters, the principal poem | G Sellers, O of the book, is a curiosity of its class; it is a Davy, Caneda simply a narrative of a little matrimonial quarrel, of the most ordinary, and indeed prosaic kind, begun in tears and ending in kisses, yet G Mundaugh, Va full of the poetry both of the imagination and the affections. The shorter pieces have the J P Reynolds, do usual amount of grace, simplicity, pathos, G Juvett, NY and religious feeling by which the muse of A M Ellsworth, Md Charles Swain commends herself to a wide circle of "the gentle and the good."-Chamber's G T Roberts, do

Oh! the old, old clock, of the household stock Was the brightest thing and neatest; Its hands, though old, had a touch of gold, And its chime rang still the sweetest. Twas a monitor, too, though its words were few Yet they lived, though nations altered; And its voice, still strong, warned old and young When the voice of friendship faltered!

"Tick, tick," it said-"quick, quick, to bed-For ten I've given warning; Up, up, and go, or else, you know, You'll never rise soon in the morning!"

A friendly voice was that old, old clock, As it stood in the corner smiling, And blessed the time with a merry chime, The wintry hours beguiling; But a cross old voice was that tiresome clock, As it called at daybreak boldly, When the dawn looked gray o'er the misty way,

And the early air blew coldly,
"Tick, tick," it said—"quick, out of bed,
For five I've given warning;
You'll never have health, you'll never get wealth. Unless you're up soon in the morning. Still hourly the sound goes round and round, With a tone that ceases never; While tears are shed for the bright days fled, And the old friends lost for ever!

Its heart beats on—though hearts are gone
That warmer beat and younger;
Its hands still move—though hands we love
Are clasped on earth no longer! "Tick, tick," it said-"to the church-yard bed, The grave hath given warning-Up, up, and rise, and look to the skies, And prepare for a heavenly morning!"

*Letters of Laura & Auverne. By Charles Swain. London: Longman, 1853. Mrs Garlous, do Miss Caskie, de

CIRCULATION OF LONDON NEWSPAPERS. From the return of stamps issued to the V Brent, Md newspapers of the United Kingdom during the years 1851, 1852, and 1853, we ing the years 1851, 1852, and 1853, we gather the following particulars regarding the principal London journals: As regards the daily morning papers D W Jordan, SC

the great pre-eminence of the Times is more than maintained. Its consumption TJ Pugh, NC of stamps in 1851, was 12,505,000; in A A Horner, Ark 1852, 13,225,000, and in 1853, 13,909, Ws Hutchin, NY 000. The Morning Advertiser comes next, G H Moore, do but longo intervallo, its numbers for the H Mooers, do three years respectively being 1,920,000 J I Mickle, NJ for the first, 2,222,000 for the second, and 2,292,000 for the last. The Morning E T Morris, Va Herald's circulation was in 1851, 1,217,- G W Hilliary, Md 000; in 1852, 1,283,000, and in 1853, 1,-263,000. The Daily News shows 1,265,-000 in 1851; 1,221,000 in 1852, and 1,-165,000 in 1853. The Post had a circulation in 1851 of 818,000, in 1852 of 834,-000, and in 1853 of 829,000. The Chronicle it appears consumed 875,000 in 1851, G Trenwith, Md G H Williams, Texas 712,000 in 1852, and 624,000 in 1853. WONDEREUL CURE. - The following

wonderful effect of one of the cure-all J M Kelly, Ga patent medicines, advertised so extensively in many of the newspapers of the day, is about as well authenticated as most of the remarkable cases which are WP Burroughs, Wis backed up by a long array of bogus cer- E Mann, Ga tificates: "A boy had swallowed a silver dollar. R A Williams, do E Checks, Ark.

None of the faculty could devise any alleviation, whereupon the inventor of the cure-all medicine was sent for. 'It is Hon M C Trout, Pa evident,' said he, 'that so considerable a coin can never be forced up by any Capt McKown, Md emetic known to science. However, let Col J F Carter, Pa him take this pill, and flattering consequences will be likely to ensue.' An hour afterwards, the boy threw up the dollar, but in small change-principally five-cent pieces."

ALWAYS Busy.—The more a man accomplishes the more he may. An active tool never grows rusty. You always find those men the most forward to do good, or to improve the times and manners, always busy. Who started our railroads, our steamboats, our machine shops, and our manufactories? Men of industry and enterprise. As long as they lived ket, Washington, on Saturday morning, and every they keep at work, doing something to morning during the ensuing week, some very superior BEEF, to which he would invite his numerous benefit themselves and others. It is just triends and the public generally. This beef was fed so with a man who is benevolent-the more he gives, the more he feels like giving. We go for activity-in body, in mind, in everything. Let the gold grow not dim, nor the thoughts become stale. Keep all things in motion. We should rather that death should find us scaling a mountain than sinking in a mirebreasting a whirlwind, than sneaking from a cloud.

NEVER TOO OLD TO LEARN .- Socrates, in extreme old age, learned to play on general assortment of musical instruments. Cato, at 80, learned the Greek language. Plutarch, at 70, began Latin. Buccacio, at 35, began to study polite literature. Sir H. Spellman commenced scientific studies between 50 and 60. Colbert renewed his studies in Latin and law at 60. Dr. Johnson engaged in the study of Dutch a few years previous to his death. Loudonvico Monaldesco, at the age of 115 wrote the memoirs of his own times .-Ogelbi, translator of Homer and Virgil, knew nothing of Latin and Greek till past 50. Franklin's philosophical pursuits were not fully commenced till his 50th year. Dryden, in his 88th year, Green and Olive sts., will be promptly despatched.

ARNY & SHINN.

A New Invention .- It is stated that a resident of Fredonia, N. Y., has invented a curious apparatus for supplying locomotives with water. According to the new plan, a cistern must be constructed beneath the track, having connected with to a nicely assorted stock of FAMILY GROCERIES, it a force pump, which in its turn is connected with a series of "friction wheels," inserted above it in the track. The loco- suit customers by motive is run upon these wheels, and then however swiftly its wheels may revolve, it can go no farther, as the friction wheels upon which it stands revolve with those of the engine. The force pump is in this manner set at work, and made to raise from 1500 to 2000 gallons per minute.— A practical test of the invention is about to take place on the Buffalo and Brantford

Railroad. A correspondent of the Literary Gazette writes from Dresden: " A few days ago Herr - was sitting in his room in Ratisbon, when he was roused by a knock at his door; upon opening it he found an old woman, bent down with age and sickness, imploring alms, and upon inquiry he found that she was in GAS FITTING. They have secured the services the daughter of Schikaneder, the companion and favorite of the great Mozart, but cities. whom misfortune after misfortune had reduced to the lowest grade of poverty and distress, till at last, at seventy-four years of age, she was obliged to wander and Jefferson. forth into the streets, and sue for charity for herself and for her husband, who, seventy-seven years old, lay at home bedridden and stricken by an incurable disease."

Snow in Russia.-From the interior of Russia it is reported that the snow was lying everywhere, and in many places was from five to seven feet deep, seriously hindering the marching of troops. For sixty or seventy versts round Odessa the snow had melted, making the ground spongy and impassable.

GE CPEAK OF ME AS YOU FIND; NOR AUGHT SET DOWN IN MALICE."

A PLAIN AND UNVARNISHED STATEMENT. We commend the perusal of the extract below, to our readers: Mr. Bull is a merchant of high char-SANDY BOTTOM, Middlesex, co., Va., August 29th, 1853.

stances that justify it. As you are the Agents for HAMPTON'S VEGETABLE TINCTURE, I deem it expedient to address you this note, hoping it may be a part of the honorable means of giving this medcine notoriety which its merits deserve. Being in the habit of vending medicines which relate to the patent and regular system, I consider myself, to some extent, a judge of the real merit of many of them. My experience teaches me that "Hampton's Tincture" is a Medicine of real merit of intrinsic value. When I say this, I do not say that it is an infallible cure in all cases, but I mean to say that Hampton's Tincture will favorably operate in all diseases originating from a want of proper secretions of the gastric juices, bad digestion, and consequently bad deposits of animal matter from that source. I believe that many diseases located in various parts of the system, such as Inflamation, Ulcers, Scrofula, &c., originally have their being in the stomach, from bad food, bad digestion, and con-sequently bad depositions of the circulation to those parts; and I will believe Hampton's Vegetable Tincture will even react in those cases.

Having found out myself what it is, I recommend it to others in such cases as I have described, and I have done it upon the "no cure no pay" system, and I have yet to have the first bottle returned, or the first objection about the pay. It is a great pity, it cannot be more extensively circulated among the people. people.
it in the following cases; Gout, Rheumati m, Inflamations, which proceeds from the stomach, Scrofula, Sores, Dyspepsia, long standing cases of Ague and Fever; first stop the chill, and then give the Tincture—the difficulty in this case is not in stopping the chill, but the return of it, this the Tincture will certainly do. In general debiliations, I warrant it, and as I said before, I have procured a trial of it in this way, which otherwise I could not; the people have been humbugged by patent medicines so long, that they are afraid of all. This is clearly a stemach medicine, it works all its wonders there, and in all such cases it is a specific, if anything in the world Having given the Tincture a fair trial with my-self, in my family neighborhood, I think I am war-

general circulation, and in every man's family, just where it ought to be. If what I say be doubted by any of the afflicted, and they will write to me at Sandy Bottom Post Office, Middlesex county, Va., stating the nature of the disease, and I recommend it for such a case I will warrant it, and if it don't do good, I will pay for the Respectfully, THOMAS R.
